

What is Empower BESMailBox?

If you are on BES, you know this. Your work emails show up in the default Messages app intermixed with emails from all your BIS accounts, SMS, PIN and Browser messages. It's easy to miss work emails among the plethora of messages you are getting, search is a nightmare.

Not anymore! Empower BES MailBox provides a dedicated access to your work emails. Just click on it and you are shown only BES Messages. Neat and clean, all nicely put up in one dedicated folder of their own. No more chances of missing important work emails from among your 300 unread mails. What's more, you can even set Folder-based alerts to receive sound notification when an important email arrives!

Go, download Empower BESMailBox for a simplified work life today.

A Quick Look

Fully On-device. Just install and you are ready to go!

Complete integration with the native email viewer.

Folder-based Alerts to notify you of important emails.

Integrates with **Empower HTML Email Viewer** for an awesome email experience!

Available for all OS 4.1, 4.2, 4.3, 4.5 and even the latest OS 4.6 and OS 4.7

Deploy on a wide range of devices ranging from the oldest 7290 to the latest **Storm!**

Installation & Troubleshooting Guide

What is the fastest way to install Empower BES-MailBox?

- ✓ Point your BlackBerry Browser (not your Computer) to www.getEmpower.com and click on the green 'Download Trial' button. If you have purchased the product, just type your Activation Code to register the Trial into a fully registered version.

When I install using Desktop Manager, I get a 'No Additional Application designed for your Handheld' error?

- ✓ This is a standard RIM error message that tells you that the version of your Desktop Manager is older than the OS version on your Handheld. This can happen, for ex, if you upgrade your BlackBerry but forgot to upgrade the Desktop Manager. You can install Empower BES-MailBox over the air without the need of Desktop Manager. For this, just point your BlackBerry Browser (not your Computer) to www.getempower.com and click on 'Download Trial' as explained above. If you have purchased the product, just type your Activation Code to register the Trial into a fully registered version.

Where do I enter the Registration Code?

- ✓ Goto your BlackBerry HomeScreen > Options > BESMailBox and click on the 'Register' MenuItem. If you do not see any Register menuitem, then your copy is registered.

How do I set my preferences?

- ✓ Goto your BlackBerry HomeScreen > Options > BESMailBox

I installed and it shows a BESMailBox menu in the RIM Messages app. But I don't see any separate work-email only icon of its own?

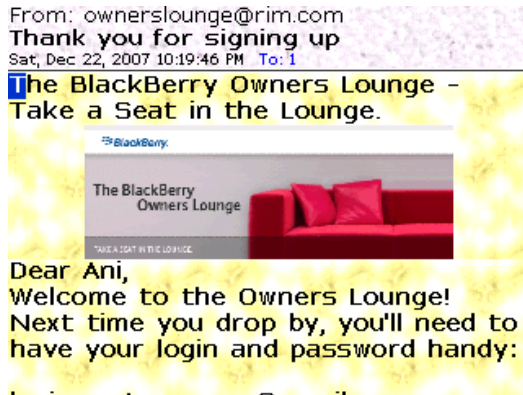

- ✓ On OS 4.6 and above RIM has started installing applications not on the HomeScreen but in a separate folder. Please look under Downloads (or Applications) and you will see the Empower BESMailBox icon there. You can just select and move it back to the HomeScreen to have ready access to your work-only emails.

I purchased and got an Invalid PIN message. Or any other question not answered here.

- ✓ Please feel free to write to support@getEmpower.com with your query. We will be glad to assist you. Please include relevant details like your device model, device OS, whether you are on Trial or have the registered version and an accurate description of your query. Relevant information helps us resolve your issues quickly without having to email you again for the same. We generally respond to emails within 1 business day and weekends are off.

(More on) Empower Your BlackBerry
